Github: github.com/ashutosh-kumar-01
Email: ashuutoshkumar01@gmail.com
Mobile: +91-7761966639

SKILLS

- **Languages**: C++, Java, HTML5, CSS3, JavaScript(ES6+), TypeScript, PHP, Python
- **Frameworks**: Node.js, React.js, Next.js, Express.js,Tailwind CSS, Bootstrap, Socket.io
- **Tools/Platforms**: AWS, Docker, Jenkins, CI/CD, Git, GitHub Actions, Postman, Figma, Vercel
- **Database & Services:** PostgreSQL, MySQL, MongoDB, Prisma ORM
- **Soft Skills**: Time Management, Critical Thinking, Leadership, Team Management

FREELANCING

- **Karaxsoft.tech | Frontend Developer** | Link — Aug 2025
  - Crafted customized Learning Management Systems using **Next.js, propelling** online enterprise expansion by **40%** and facilitating prospect acquisition for niche ventures.
  - Configured **Calendly** and **Cloudinary** into interactive components, expediting asset delivery and minimizing friction by **45%** for all end-users.
  - Refined mobile accessibility to amplify overall consumer loyalty by **25%** across multiple devices.
  - **Tech stacks:** JavaScript • Tailwind CSS • Next.js • Postman • Cloudinary

PROJECTS

AlertMatrix - Event Monitoring Tool | Github | Live — Nov 2025

- **Engineered** a sophisticated event-monitoring utility utilizing Next.js for HTTP pings, ensuring **99.9%** uptime tracking while dispatching Discord notifications for immediate system awareness.
- Instituted secure API authentication and **Stripe** integrated membership tiers, automating premium access control while limiting resource consumption by **35%** for unpaid accounts.
- Accelerated data processing cycles by **50%** through PostgreSQL optimization and Vercel deployment
- **Tech stack:** Next.js, Tailwind CSS, TypeScript, Prisma, PostgreSQL, ShadCN, Vercel, Stripe.

QuickAI – All Your AI. One Platform. Your Brand. | Github | Link — July 2025

- **Orchestrated** a comprehensive artificial intelligence environment supporting generative content and visual synthesis, enhancing workflow efficiency by **30%** for diverse creators.
- Synchronized **Clerk** security and **ImageKit** services to manage complex media handling, decreasing application latency by **25%** during heavy server loads.
- Architected scalable dashboards regulating autonomous screening operations, augmenting evaluation throughput by precisely **60%**.
- **Tech stack:** React.js, Node.js, Tailwind CSS, Clerk, Cloudinary, ImageKit, Neon, Vercel, AI APIs.

CryptoPlace - Live Charts and Market Analytics | Github | Live — July 2025

- **Facilitated** instantaneous cryptocurrency insights by rendering live valuations and **24-hour** fluctuations, achieving **99%** data precision across five hundred distinct digital market assets.
- Integrated **CoinGecko** and Google APIs within a React environment to generate sub-second chart updates, supporting seamless multi-currency searches for global financial datasets.
- **Standardized** cross-device responsiveness to decrease browser load times by **35%** for mobile users.
- **Tech stack:** JavaScript, React.js, Tailwind CSS, CoinGecko API, Public APIs, Vercel Deployment

CERTIFICATES

- Cloud Computing | **NPTEL** | certificate — Oct 2025
- Data Structures Algorithms | Cipher Schools | certificate — July 2025
- Master Generative AI & Generative AI tools | **Infosys Springboard** | certificate — July 2025
- Introduction to Hardware and Operating Systems | **IBM** | certificate — Sept 2024
- The Bits and Bytes of Computer Networking | **Google** | certificate — Sept 2024

ACHIEVEMENTS

- **Surpassed** a **100-day** LeetCode consistency streak, resolving **361+** algorithmic challenges to secure a **1643** rating and **top 18%** global standing. Profile — Jan 2026
- Attained a **3-star** proficiency level on CodeChef, reaching a national rank of **18,917** through competitive programming and complex problem-solving. Profile — Jan 2026
- **Coordinated** technical operations for the **Bits & Bites 2.0** hackathon, managing infrastructure for university-level competitive development. — Sept 2024

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering**: CGPA: 7.00** — Since August 2023
- **+2 High School Jayhind Tendua** — Aurangabad, Bihar
  Intermediate; Percentage: **60%** — April 2022 - March 2023
- **St. Xavier's High School** — Aurangabad, Bihar
  Matriculation; Percentage: **62%** — March 2021
